Customer Reviews

First off I want to reply to the review called "I just don't understand" by a reader in MI. Why the hell did you only give it two stars? You didn't even say ONE DAMN THING AT ALL about this book. You admit you know nothing about Tupac, never read into anything about him. Do you even have this book? Did you ever look in this book? Apparently not since you admit you are ignorant. So why the hell would you rate a book that you have never even looked at? It's people like you that ruin these forums for reviews. All you do is say ignorant crap and admit you know nothing about him and give

the book a low score. You didn't even say one thing about this book. Don't you know these reviews are about the products? This isn't a forum for you discuss your ignorant opinions. You are supposed to rate the product. Also, you want to know what he did for his community? He helped out poor kids that came from single-parent families and kids that came from households where drugs were a problem. He gave them food and shelter. He kept this quiet from the media because he didn't want people to think he was doing it just to make himself look better. He did it silently because he really cared for people. Also, his music helps people. Music is very therapeutic and all kinds of people can relate to the emotions that are evident in his music. That aside, I give this book 5 stars. If you want a biography look elsewhere. This is a book version of the film Tupac Resurrection. It contains his poems, letters, thoughts, and many pictures from his early years up until the end of his life. I think it's very interesting and encourage anyone who likes Tupac and admires his passion to get this book. It's very sad to think about Tupac when you go through this book.
