My Early Life: 1874-1904

Synopsis

Here, in his own words, are the fascinating first thirty years in the life of one of the most provocative and compelling leaders of the twentieth century: Winston Churchill. As a visionary, statesman, and historian, and the most eloquent spokesman against Nazi Germany, Winston Churchill was one of the greatest figures of the twentieth century. In this autobiography, Churchill recalls his childhood, his schooling, his years as a war correspondent in South Africa during the Boer War, and his first forays into politics as a member of Parliament. *My Early Life* not only gives readers insights into the shaping of a great leader but, as Churchill himself wrote, "a picture of a vanished age." • To fully understand Winston Churchill and his times, *My Early Life* is essential reading.

Book Information

Paperback: 400 pages

Publisher: Scribner; 5.7.1996 edition edition (June 6, 1996)

Language: English

ISBN-10: 0684823454

ISBN-13: 978-0684823454

Customer Reviews

What surprised me most about this book was the humour. I expected the familiar story of our greatest leader's early life, I expected an insightful account of Britain in the late 19th and early 20th centuries, I expected a stirring tale of a young man who was a practical adventurer just as much as politician and author. I didn't expect to laugh out loud regularly for much of the story. If you've seen the film "Young Winston", based on this book, you will be familiar with some of the events. Other programmes and books have adequately explained his war leadership and his contribution to many serious political issues. However, the films and documentaries I have seen fail to capture the mischievous spirit communicated through this book. This a fascinating study of a bygone age, when Britain maintained a great empire, when most politicians took the title Lord, and when politics and army officership were sports for those of independent means. Interestingly despite his aristocratic

bloodline Churchill's family was not particularly wealthy and some of the most poignant lessons stem from this. Sometimes the sentiments in the book appear bloodthirsty or imperialistic, but you have to realise that at least part of the time Churchill is writing satirically, reflecting common values which you suspect he did not always share himself. When he is sincerely expressing his own serious ideals it is usually easy to detect. These beliefs link both his skilful analysis of historical events, and Churchill's account of his own development. For example he explains the British government's failure to be magnanimous after the early victories of the Boer war as the reason that a relatively fast-moving and honourable conflict descended into "shocking evils" on both sides.
