Memos To Shitty People: A Delightful & Vulgar Adult Coloring Book

Synopsis

Do you have a terrible, incompetent neighbor? Does your annoying coworker never shut up? Do you have to deal with shitty people every day? Are you trying to find an unique novelty gift for your best friend? Sometimes, you just need to swear at someone... Join the foulmouthed masses and unwind with *Memos to Shitty People*, an adult coloring book designed for swearsy relaxation. Color designs featuring humorous and delightfully vulgar phrases like "Seriously, Bitch?" and "Oh look... the fuck-up fairy has visited!". With over 39 designs, each page is replete with innocent animals, hidden critters for you to find, and beautiful flowers and foliage for you to color away while letting your steam out. Includes a digital bonus at the back of the book.

I want to start out by saying that I own many adult coloring books but this is my first ever purchase of a James Alexander one and it definitely will NOT be my last. I am so impressed by his designs and style and cannot wait to get more of his books. Not only did I like this book because of it's vulgar and rude sayings, but because the detail around them is absolutely wonderful. I personally love coloring animals and design and around the phrases in this book are pictures of animals and tons of detail. He really outdid himself on this book. Being my first book by James Alexander, if this is an indication of how all his books are, I will be the proud owner of them all some day. In my video I

show you all the designs and pages in the book so you can see just what I'm talking about. They are amazing! The only difficult thing is reading some of the pages before they are colored because there is so much detail surrounding them. However, when you color them, they totally "pop out" at you. The pages are a tiny bit thinner than normal but I always just place a few sheets of paper or a piece of poster board in between them anyways to ensure nothing goes through to the next page. There are no perforations in this book and it's got a lot of pages and designs in it. I absolutely would recommend this book and if I could give this 10 stars, I would have!! LOVE, LOVE, LOVE it!!

Love me some James Alexander adult coloring books! This newest is AWESOME! The book is nice and thick with free downloads for more! It's not just boring curse words, it has cute little animals and fun things to color! Great way put some love into a memo when someone just needs to hear the truth! Haha! I love all his books and this one, I think I'll have to say MY FAV! thank you!!! Highly recommend this one- :)

I am happy that I decided to add this coloring book to my collection! The book has 39 different designs featuring some great vulgar phrases. In addition the book, you also receive links for bonus designs to print. The quality of the book is great. It has nice pages and crisp lines. Perfect for any coloring medium of choice: markers, pencils, etc. All the designs feature some critters (raccoon, squirrel, dog, etc.) and various flowers/leaves. Add this book to your coloring collection - you won't regret it!

PROS: As always, James Alexander's drawings are guaranteed winners. They make me laugh on days when nothing else will. Some of the pictures have repetitive aspects to them, but rather than making them boring, they're just familiar. The theme of this book's new text, combined with not having to think so hard about the animals and background images, making coloring more cathartic than ever!!!!Also, buying the book gives you links to complimentary images that you can download and print at home. Plus I really like supporting his business because he is a really nice person and tries hard to help his customers. Check out his facebook page!!!CONS: The paper is thinner than I would have liked, but single sided pages avoid any problems with bleeding through to the back side. You can always scan the pictures and print them on cardstock. Still, if you want to color in the book itself, I would strongly recommend having a heavy sheet of paper behind it to protect the next picture.Also, James created the book in both black and grey, but I had forgotten and accidentally ordered the wrong one. Not the end of the world. You can always scan the pictures, change it to

grey and then reprint. The advantage to grey is that you can use light colored translucent pens without seeing the black ink on the page. Thank you, James!!! I had forgotten that I ordered your book and was very happy to see it in the mail!!! Edited to add: I am including a picture that I colored today for your amusement.

I am fine with all the phrases, they are pretty funny. What I'm disappointed in is the complete lack of variation between the pages. Every page uses the same exact font and has the same collection of background items (leaves, mushrooms, etc). So basically, if you have colored one page, you have colored them all since it's just the same stuff rearranged slightly. I would have preferred some variation in the scenes (majestic mountains, valleys, rainbows, water, etc.) At least SOMETHING else to break the monotony of the same woodland collection on each page. Blah. I should have paid more attention to the in-book previews.

The pictures have funny sayings (some of them I've never even heard of) and you get nice bonuses by signing up for the newsletters listed in the book. This author has other great coloring books too. I chose this one because of the cute animals. The cover is nice and thick, the pages are nice quality, images are only printed on one side (a must for me), and they are NOT perforated (I know some people prefer them to be perforated- normally I don't really care, but it would be nice to have with this book because I would like to be able to easily tear them out so I can give them to people). The only thing I didn't like was that you see a LOT of the same images used repeatedly in a lot of the pictures (see my photos). So coloring the entire book might not be as fun as maybe some others that there is more variety in.***I TRIED TO UPLOAD PHOTOS BUT MY REVIEW KEEPS GETTING REJECTED. I DON'T KNOW WHY- I was posting only photos with very minimal swearing or none at all, and no matter how I edited it my review kept getting denied! I see similar photos in the product description AND in other's reviews so what's the deal???
