Out Of Sight - Out Of Mind: Declutter And Organize Every Facet Of Your Life

Synopsis

If you have been battling with clutter in all aspects of your life, it is about time you had some breath of fresh air. This book contains every technique that can help you prevent, eradicate, and banish clutter out of your home, office, mind, and every other aspect of your life. What makes this book stand out is the wide range of practical methods, examples, and tips contained in it to help you reclaim your home from the persistent invader called clutter. This book will not only help you get rid of clutter from your life, but will go a long way to instill clutter-free habits in you and help you live a more organized, relaxed, and successful life. From your mind to your bedrooms, you will find very useful and easy steps you can employ to clear away every kind of clutter and stay clutter-free afterwards.

Customer Reviews

We all know that we live in a world with too little time and too high stress. Well, decluttering is a great way to solve this problem! This book is just packed with insightful tips from all of the top experts in the field of organization. Before reading this book, my house was the definition of chaos. After applying the different tips in this book my place is really starting to come along. As the house gets tidier by the day my stress levels have been dropping. Life is too short to live in a state of stress. Check out this book if you want to get control of your life today!

At home I am out of mind. I don;t know where to start to organize all our things.I have 2 kids who always play and run all around the house.Sometimes I'm thinking on putting some stuff in the attic.Lastly, the cover photo of the book is very interesting I think its me.Good thing I got this book and i'm able to organize and declutter our place.

I totally like this book. I want to declutter and organize my house that's why I grabbed this book to have some more information about declutter.I've learned a lot from this book and it really helped me.This book is very detailed and very informative.It's very interesting.The guides are clear and easy to understand.Everyone should read this also.Should be recommended to all.

I purchased this e book thinking that it will give tips to declutter my house, but I was quiet amazed to read this book, it not only helps you declutter your house, but mind also, I have always been taught that a clean space gives you positive vibes and is pious, but how do we get doing that, when we have so many things to do and very little time to manage all. This is where the book comes handy.

This book was not organized very well, was repetitive, and had many grammar and spelling errors. Removing your fruit 'bowel' from your kitchen bench was the funniest mistake. I was very glad I got it when it was free. While it has some potential, I wouldn't recommend it as is.

I'm really impressed with the amount of tips that this guide book has.Want to recommend to all my friends and family members.It is indeed a good read and I highly recommend this book to everyone. It's really worth spending my money and time on this book.

Well written and laid out. I have listened to this book in its entirety a couple times over and still pick up new tricks. Very likely I will listen to this book regularly as time goes by on an annual basis for a reminder.

This was a very motivational book to do something about the clutter that surrounds us at home in particular. Before I finished the book I started utilizing some of the techniques. Now I know how to declutter. After years of habits of just acquiring things. More thought must be given to whether new purchases are necessary and bring long term satisfaction.
