Customer Reviews

There is something about the first time you get it to sound like the CD. After dozens of failed attempts and suddenly it sounds like a song. Great book and CD. I have twenty beginner books. I love this one.

This book is in the middle. Some pretty basic stuff but not enough detail I would say, color pictures would have helped. I would recommend looking into lessons on youtube. You can find everything you need, check out the channel called BanjoBen.

Well written and easy to understand. Bill Evans is a great teacher.

Very helpful for a beginner like me

It is slow learning but practice every day for at least 20 minutes and I can see the improvement.

Great easy to use. Got me tuning the banjo, adjusting my hand position and playing 3 basic cords in 2 weeks

A gift. Is being read and proving useful. At the moment it is really an introduction to the banjo world. We'll see how the playing turns out, one day.

Easy to understand, good practice routines and a helpful CD
