Rockin' Mandolin

Synopsis

(Music Sales America). The bright and distinctive sound of the mandolin is more popular than ever in the rock and pop hits of the charts, and this unique tutorial will show you how to incorporate the instrument into your own songwriting. Learn how to back up a melody, write and perform a solo, and jam in a variety of styles. Topics covered include: equipment * choosing an instrument * pickups * amplifiers * effects * rhythm playing * doubling the snare * doubling the guitar * playing backup * soloing * harmonics * scales * double stops * crosspicking * tremolo * and the slide. An accompanying CD puts all the lessons into context by allowing you to hear exactly how it should all sound.

Customer Reviews

I am an intermediate to advanced player but I think that this book would be a good addition to any mandolin player's library. The CD is especially helpful and although some of the rhythms are a little awkward to pick up between the text and the CD one can learn quickly. There is only weaknesses that found was that the CD could use some more narration. A brief description by the author up front of each section would help. A little more descriptions of how to apply each rhythm and where they work best would help as well. Overall I highly recommend this book.
