Men Don't Love Women Like You! The Brutal Truth About Dating, Relationships, And How To Go From Placeholder To Game Changer

Synopsis

Stop searching, this is the answer you have been looking for. Why isn't your love life where you want it to be? Are you going to point fingers at the quality of today's men, blame the city that you live in, or come up with the defense that you don't have the energy to date? You pretend to be working on yourself, but you secretly hope and wish that Prince Charming will fall in your lap. You make the excuse that it's not you, it's the men, but there is something inside of you that knows the common denominator in all of your failed relationships was you! No matter if you're struggling to find someone new, trying to make things work with someone old, or currently confused about a person that's giving you mixed signals, this book will reset and revolutionize those relationships. It's time to take control of your life and get the love you deserve. This isn't about online dating gimmicks, how to submit to male techniques, or any nonsense that publishers push down your throat to make money off of your desperation. This book holds the answers to your salvation, and it all starts by going within and learning the secrets to manifestation that goes well beyond the inconsistent Law of Attraction philosophy. If you want real results, provable results, and a life where you will never shy away from your greatness, then take up the Spartan challenge today! This is not a dating book for the soft, this is the gateway to power for the strong. Conquer your fears, take back control of your life, and awaken the Spartan within.

Customer Reviews

This book opened my eyes to how men really, truly jockey for position in relationships and how to turn that heartache around. If you find yourself getting continuously wined and dined and pumped

and dumped, this book will hold up a mirror to your life and set you straight. Be prepared for 100% brutal honesty! And it isn't about playing silly games or following outdated rules. • The book goes through a detailed blueprint of how to conduct yourself on a date, in a relationship, etc., but when it comes down to it, it's all about self-respect, self-confidence, and never putting your true needs under the whims and desires of a guy who is just interested in making you a placeholder. A must-have for today's woman!

The most AMAZING MUST-HAVE for everyone woman! I wish that I had this book years ago. It would have saved me time, money and energy in those dead-end relationships!-Spartan Z

Really Great Book!!! Since reading this book my whole outlook on men, dating and relationships even MYSELF has changed. I wish I had this book to read years ago I probably would not have experienced as much heartache. I am so happy I came across this book my life has changed for the better I am sooo serious when I say that. I definitely recommend this book!!!

I have always been a huge fan of the authors blog, bgae. I read his first two books that were good but this one is on another level. He may seem offensive but it's tough love. If you make it past that, you will be ready to take on the dating world with your new found 'magic' Because of the perceived shortage of Black men, many women accept subpar treatment which has created a culture of unstable situationships as opposed to long lasting commitment. If anyone does not take away anything from this book, it is because they missed the point. It's not your average 'take this step for this result kind of book' it's a 'take responsibility for your actions and take control of your power' book. This book is more about focusing inward and realizing your worth and value. Many women are scared to make that assessment because they know that they continually sell themselves short and it takes discipline to not settle. I recommend this book for women who are dating and continually get the same results. It has to be you- do something about it! He coached and guide you to be your authentic self and not like the typical chick caught in the matrix of the wrong men. The title of the book put me off initially because it hit home. I've had plenty of men but none loved me (at least not in the way I needed). By the time I reached the end of the book, the title made more sense than I initially thought and the author's words left an impression that is part of my morning meditation daily. Hope you enjoy.

Warning. This book requires you to use your brain to actually read and learn something deeper than

"this is how you get a man and get over a breakup and stop feeling fat and ugly" it is very powerful if put in the right hands and I have already put it into practical use. If you have the smarts and the patience to dig into the truth of self then this is a must have. I haven't felt like this since I read the secret, great job.

The harsh reality -I understand why all of my many relationships failed.It's a woman's wake up call. Thank you.

Everything he says in this book is true, and I know that because I have instinctively been the way he describes with men for 20+ years and have been treated like a Queen, and every boyfriend has proposed in less than a year of us dating. I only date very good looking, intelligent, sought-after men and I'm only slightly above average in looks, and I'm not great at looking put-together (I'm learning!) men love Spartans and they NEED more of us, I'm really glad this book was written.

Really wakes you up.Great read
