## Customer Reviews

I have always used doodling and shading as a form of stress-relief. With so many adult coloring books available now it can be a bit overwhelming and hard on your purse. I recently discovered Color Zen by Vanessa Lee. The floral patterns are beautiful and the pages are not too busy • some books can be overwhelming instead of peaceful. I truly love this book and will be giving the gift of Color Zen to several people in my life Christmas.

Eh. I have quite a collection of coloring books. I've been purchasing them on and off for a couple of years. I have problems with my hands due to MS and have found coloring to be a great physical therapy aid. I buy the majority online as it's hard for me to leave the house. If I would have known how these pages looked prior to buying, I wouldn't have. I'll be adding pics so buyers know what

they're getting. This book has 20 one sided pages to color. Most look like I drew them myself...that's not good. A couple of decent pics. Disappointed, but I'm learning in the adult coloring book world, you get what you pay for.

Good book, but could use improvement. These designs are cute and fun the designs change throughout the pages making this book unique and not repetitive. \* single sided\* 60 lb paper you can use markers and gel pens just put paper behind to prevent bleed. \* cute and unique designs Possible improvements\* better line art\* darker more crisp lines. \* a small border around the designs for a more professional look. \* larger designs for easy coloring The designs in this book are small. You may want to use super sharp pencils or pens to color. The designs font take up the whole page which is nice. But also there is a lot of background space too

I was very disappointed in this coloring book when I recieved it really wish had a quick look option so you had an idea what you were getting very simple doodles it felt like a child book

I am a nursing school student, and as my classes get more difficult and I start to feel stressed, I like to have an outlet to ensure that I can relax and have a little fun. The difference between this type of coloring book, and one you may buy for a child, is that this allows for the creative whims of an adult. It is a lot of fun to relax and color and not think about everything that vexes me. Really truly, I think any adult can benefit from a zen coloring book. The patterns are a lot of fun and you get to create something beautiful!! I received this product at a promotional discount for the exchange of an honest and unbiased review. The views expressed are my own.

I loved to color when I was a kid, and I still do. The Zen Adult Coloring books are very intricate, but are relaxing. I like to use map colors because you can erase if you color out of the line. There are many different designs. They are called adult because children usually prefer animals or people. Some of the pictures I've colored are so pretty that I took a photo and put them on my smartphone wallpaper. This is the second book I purchased from Vanessa Lee. I like this one even more!

Ok so this was not what I was expecting. It's really cute but I just didn't understand the concept when I ordered it. This book is something you could color in very short time allotments, while you were on the phone, etc. It's like a page of doddles that you start coloring. No stressing about what colors you should use, just grab your favorite and fill in a butterfly. Pretty funny, pretty clever as I

assume the artist intended this. Make sure your colors are sharpened to a pin-like finish because there are many tiny thin areas to fill. Unfortunately this just wasn't what I was looking for as I like to plan a color palette, and have a real challenge when I start a pic. Cons: cheap, course paper; the ink actually smears!

most adult coloring books are so intricate that they actually stress me out (I'm looking for a calming activity). I like this one because it's more detailed than a child's coloring book, but not so difficult that I would be unable to relax at all trying to fill it all in. Works well for me.
