# The Look: An Around-the-World Fashion Coloring Book

## Synopsis

It's haute couleur: The phenomenon of adult coloring books meets the world of fashion in *The Look*, a compelling fantasy tour showing scenes of chic, trendy life on the streets of the world's style capitals. The clothes, the hair, the accessories (including French bulldogs and graphic skateboards), the poses, the attitude, the look—here is page after page of extraordinarily detailed and lifelike line drawings of stunning women and men, young and old, wearing beautiful, stylish outfits, each image like a fashion shoot, each waiting to be colored. A ripped T-shirt and jeans in Antwerp. Animal prints and fedoras in Milan. Bold pattern-mixing on Fifth Avenue in New York City. Window-shopping in the Sixth, strolling along Shanghai's Bund. Coloring lets the reader play designer, experimenting with colors, orchestrating different contrasts and shades. It's the perfect impulse book and gift for everyone who reads *Vogue*, follows *The Sartorialist*, watches *Project Runway*, and lives for fashion—and wants all the pleasurable, meditative benefits of coloring, too.

## Customer Reviews

WOW I love this book, so big and thick, detailed fashion looks, cute pictures.. i'm 20 and i love it, but this is also great for young girls into fashion! i included random pictures because I wish sellers knew we are more inclined to buy if we get a sample of the inside!

I love, love this book. If you like coloring fashions this book is for you!! What else is there to say, this was a great buy!!!!!!These are modern fashions, you'll see fashionably dressed people with cell

phones, in places around the world. :)

A friend bought this book for me a few months after I bought it for her! We both love it. The illustrations are lovely and just simple/complex enough to be enjoyable to color without taking forever. I enjoy practicing my skills coloring hair, clothes, skin color, etc. so this book gives me great options for all of these. My negatives are:-- the paper -- Some of the dark lines on one side show through to a blank spot on the other side. So if you color with a very light color, the back line kind of shadows through.-- corollary of the above -- the fact that the pages are 2-sided. I strongly prefer single-sided, easy-to-remove pages. These are neither.-- page size -- I know 10x10 inches is popular, but especially with 2-sided books I generally copy the pages onto my preferred paper, which handles markers and watercolor pencils better than this paper. Can't really do this with this page size. Watercolor pencils are my preferred medium, so I have to revert back to my good old regular pencils and pastels if I ever want to color both sides of a page. And the paper doesn't handle watercolor that well (not that I would expect it to).-- smeary -- Maybe it's because I'm not used to using my regular pencils, but the pencils seemed to smear as I was working, more than I recall happening in other books. I was starting out with very dark colors and soon noticed the page itself was showing grey areas here and there. I wound up erasing a bunch of areas and using Spectrafix Degas Pastel Fixative a few times as I was going along. Even with these negatives, I know I'll have a lot of fun with this book!

It is a fashion photo journal of this designer. I love her sense of fashion and the hip characters on each page! I have so much fun with this book. The only draw back is the paper doesn't work well with all the markers as well as they are double sided prints. Regardless, it is still one of my favorite books!

I was browsing online a few months ago and this book popped up. Fashion coloring books are my least favorite type, but the cover of this book really appealed to me. The pictures were even better so I went ahead and ordered it. I love the illustrations. There's great attention to detail and the picture are very realistic. The paper quality is great. Half of the pages are single sided and the other half have art on both sides. I'm not too bothered by it as I plan to use a mix of markers, pens, and pencils in this one. All in all, this is a winner.

This is exactly what I was looking for! I prefer coloring hair, clothes and makeup over animals,

flowers and paisley prints. That's total relaxation for me! My only bother, and these are my personal coloring choices, I use gel pens as well as coloring pencils. Since the pages are printed on both sides, I just have to choose which side I like best, as gel pens will bleed through. Also, I like to remove the page I'm coloring from the book, and put it on a clip board. These pages are not perforated, so I have to carefully remove them with an x-acto knife. That being said, I will purchase more books like this one in the future, but for now, I have many happy coloring hours ahead of me.

The pictures are so nicely drawn that I haven't actually started to color in it. I'm feeling a little intimidated at this time since I am pretty new to coloring. Nice quality paper and the artwork is printed on both sides of the page so I would imagine one has to use colored pencils or pastels.

The illustrations are absolutely stunning! The only reason why I gave it 4 stars instead of 5; the pictures are back to back. The paper is not thick, so you cannot really color front and back ( unless you're using color pencils). Even with that, I absolutely recommend this book:) it's a great medium for the fashionista in you =)
