For those who like to color flowers, this book has a lot to offer. Pages and pages of detailed tulips, morning glories, roses, daises, peonies and various stylized flowers. There is lots of opportunity to shade and use different colors to bring out the beautiful details on these pages. Four Star:

Unfortunately, the print is very light and some will have difficulty with this issue. Since I liked these designs so much, I removed the pages I wanted, personal use copied them to darken, and at the same time made them larger to color. Particulars of this book:~ 72 designs~ 7"x7" book~ pages that can either be removed from the top or can be left in the book.~ A handy thick cardboard pad is attached on the back of the book to use as a supportive pad while coloring. For my larger copies I use a clipboard.~ Quality of the paper is quite good for colored pencils and some gel markers.~ Back side of each page is blank.~ Could also be personal use copied and enlarged onto 80 lb. cover stock paper.~ Most of the 72 designs will require ultra-fine point pencils or marking pens.~ I used Copic Sketch markers, 0.38mm Copic Multiliners, Staedtler Ultra Fine Point markers, BIC Mark-It Ultra Fine Point markers and some shading with Prismacolor colored pencils.~ There are a few simple open designs that could be filled in with imaginative embellishments of our own.

The pictures are beautiful. I have bought every Vive Le Color! coloring book to date. Even though the paper is still high quality, the entire book was not cut correctly so the right-hand side was sealed shut. It wasn't worth it to return it since it is such a low cost. Luckily I use to make greeting cards and used my paper cutter to fix the problem. Just want to bring awareness - instead of releasing so many books so quickly, maybe pay closer attention to the quality of the product.

One of my favorite coloring books of all time! It is getting more difficult to find adult coloring books that offer original, beautiful pictures to color and this book is a breath of fresh air. Perfect for every skill level; the only "fault" I would find is that the texture of the paper isn't my favorite. I am used to paper that allows the colors to "pop"; this papers shows the pencil lines a bit more and the colors appear more "pastel" than in the other books I have. However, the designs are so enjoyable that I can easily look past this one (and only) flaw.

Nice little book, especially if you like the smaller scale books. Personally I get a little bored if a page takes too long because I like to move on to the next style or "challenge." Also, they're great for travel. The patterns aren't unique or anything but they are nice enough and fairly varied.

Love this coloring book! I love the fact that you can tear the pages out. I purchased envelopes elsewhere that these pages fit so after I color them I can write a thank you note or thinking of you note on the back and mail them to family and friends

After receiving just one of the Vive Le Color books, I immediately ordered all that had to offer...these books offer everything from the more simplistic patterns to the intricate ...a picture to match every mood...I highly recommend these books especially if you are on the go and like to take things like these with you

I make my own cards with rubber stamps or hand painting. Many of the pictures in this book are just the right size to cut into a picture for a card. Great pictures for a crafter or a coloring enthusiast.

Beautiful drawings that the whole family lives to color. These "adult" books have really helped my kids to develop fine motor skills while having fun with their parents.
