# Another Great Day At Sea: Life Aboard The USS George H.W. Bush

## Synopsis

From a writer "whose genre-jumping refusal to be pinned down [makes him] an exemplar of our era" (NPR), a new audiobook that confirms his power to astound listeners. As a child Geoff Dyer spent long hours making and blotchily painting model fighter planes. So the adult Dyer jumped at the chance of a residency aboard an aircraft carrier. Another Great Day at Sea chronicles Dyer's experiences on the USS George H.W. Bush as he navigates the routines and protocols of "carrier-world," from the elaborate choreography of the flight deck through miles of walkways and hatches to kitchens serving meals for a crew of 5,000 to the deafening complexity of catapult and arresting gear. Meeting the Captain, the F-18 pilots and the dentists, experiencing everything from a man-overboard alert to the Steel Beach Party, Dyer guides us through the most AIE (acronym intensive environment) imaginable. A lanky Englishman (could he really be both the tallest and the oldest person on the ship?) in a deeply American world, with its constant exhortations to improve, to do better, Dyer brilliantly records the daily life on board the ship, revealing it to be a prism for understanding a society where discipline and conformity, dedication and optimism, become forms of self-expression. In the process it becomes clear why Geoff Dyer has been widely praised as one of the most original - and funniest - voices in literature. Another Great Day at Sea is the definitive work of an author whose works defy definition.

## Customer Reviews

This book is just about as terrible as it gets when it comes to first hand reporting from a war zone/ship at sea. I was deployed on the BUSH and I thought it would be interesting to read a book

from an outsiders perspective about something I lived through and about people I know personally, boy was that a mistake. Overall this is a quick read (took me a little over 3 hours one evening) but all I really took away was:1. Mr. Dyer is high maintenance!!! He was absolutely appalled at the ideal of sleeping in a room with someone else (seriously, you are crammed on a ship with 5,500 people, a two man stateroom is a luxury) let alone going to the head (bathroom) with someone else.2. Mr. Dyer has no clue about the military (he actually thought the ship had a bar, places to play ping pong or Badminton). While this may seem trivial to me it shows how he really did not prepare at all for this assignment, basically all he cared about was getting a single man stateroom and I guess he would figure out everything else when he landed. If he actually cared to know what he was getting himself into a quick google or youtube search would have answered all his questions.3. The food is terrible and apparently he complained enough to where he finally got to eat with the Captain and have the CO's chief make him some food.4. Apparently he was quasi stalking a married enlisted mechanic, he mentions her numerous times in the book, to be honest its a little creepy to read and seems more like page filler (I hope to god she never reads this book)Overall Mr. Dyer did nothing for this great ship or its crew by writing this book. From an insiders perspective (I actually helped host a few Distinguished Visitors (DV'S) during my tour) Mr.
