Customer Reviews

I loved this book so much that I went and bought a second for my brother. I should note that when I purchased the book I was looking for intermediate to advanced pieces. This one tends to be more on the advanced side, but still very playable for even the intermediate players. The main melody is to be sung and is not what you actually play. The music is to harmonize with the actual melody, so if you don't plan to sing along, then you may be disappointed. I personally like to sing when I play, so this is my favorite kind of sheet music. Highly recommended!

My daughters are both pianists and they absolutely love playing the songs in this collection. It is moderately-difficult to difficult in level, as far as the piano goes. Can't say anything negative about this book!

I recieved this book from and I loved it! I first started with Blessings by Laura Story and the piano sheet music was just like it was recorded on the radio. This book has so many songs so they do vary in difficulty. It ranges from early intermediate to advanced. I was very happy with this purchase!

I was just a little disappointed in the book because most of the songs are four to six pages long and it is difficult to turn the pages while playing. It would have worked a lot better if the book had been spiral bound. The songs that are in the book are great, wonderfully written and a wonderful selection of songs to print in a book. I love the fact that the book contained both piano and guitar tabs. All in all I would recommend this book to any and all who love contemporary Christian and Worship music. Another thought is the level of skill required to play the songs is a lot higher than beginner so be aware of that.

I would buy this again. The music is as you hear it on the radio, not simplified. My only criticism is the packaging. Since I play this on the piano, why not put a binding on it that opens flat? I have to use clips to hold the pages open. A solution is to photocopy all the pages and put into another notebook, but this is time consuming and expensive.

In the above mentioned review, Michael Mann Takes the Impossible Task of writing a 5 STAR review For These Amazing New Book Releases which remains largely unread by general public due to the Massive Demand of Books and sheer difficulty for it to Climb up the Book Ranks. The very mention of These Book Thrillerâ™s sends shivers up the spines of the so-called Literary giants. The reviewer gives us a step-by-step account of how he came to know about These Hidden Beast's and how he tried to tame the urge to keep the Revelation they contained inside to himself (but in vain). He tell us about the discoveries he uncovered from These Page turning enigmaâ™s and concludes by giving a Honest and Lofty impression of These Future "Literary BESTSELLERS, To Readers and Bookworms Everywhere!!! Nice arrangements, great variety of songs. This book is not a meant for piano solos, but rather for accompaniment (the songs' melody is rarely in the accompaniment). Also, it is not geared for the beginning pianist...it's more of an intermediate skill level.

I love Contemporary Christian music, and this just has the best of the best included! It includes the guitar cords as well as a good piano score. I would recommend it for anyone who loves to sing this music!
