I'm an avid reader of all things in the fashion industry. I absolutely love this book. Loved that it has current retailers listed and also helpful hints on bra/shapewear items. I already knew my body type and the recommendations that were listed for my style is exactly what I tend to wear. It was just a fun read and I'm going to re-read it often. It boosted my confidence regarding my 'plus' size body!!

I am a 2x. Pretty good basic guide. Author is/was a plus size AND styles plus sized looks, so she is legit in my book. Great read to determine body shape, then recommends the specific shapewear + clothing styles for that type. Never really thought about that I may may need *specific* kinds shapewear, rather than just... I need shapewear. Incorporates measurements into determining your body type instead of just saying, which piece of fruit do you look like so that is a plus (apple, pear?? How do I know?) Also recommends best dress shape for your size, fit n flare vs. sheath, for example. My body type supposedly will look good in a sheath, so went shopping to purchase this plus new bras (also discovered I am wearing the wrong bra size). Tried on a sheath, something I would NEVER have chosen in the past, and BAM, it looks fabulous. Gave it 4 stars because some info is too general, like, "shirt length comes in waist, high hip, or low hip. Select which works best for you." If it was that easy, I would not need to read a book for tips. Is not too preachy about never wear white, horizontal stripes, etc.

Susan has always had a sense of style and fashion..She can transformed the simplest pieces to a work of art! She is simply amazing !
