Rackgaki (includes DVD): Japanese Graffiti

Synopsis

Dedicated to Japan's rackgaki (graffiti) scene, this book illustrates the work of major graffiti artists working in Japan today. It showcases the creativity that lies within this new and relatively unexplored form of contemporary Japanese art. Interviews with the artists, and the authors' own experiences in documenting the different aspects of this subculture, reveal an art-form at the cutting edge and often at odds with police and civic authorities. An accompanying DVD brings to life the imagery of the book and includes footage of graffiti being created. Set to a soundtrack by some of Japan's leading Trip-Hop artists, the viewer is fully immersed in the subculture that is Japanese graffiti.

Book Information

Hardcover: 112 pages

Customer Reviews

the book is great but the DVD is PAL format so unless you have a player that can play European DVDS you wont be watching it.

i go this book the day it came it and was very impressed...i had heard from a relative who lived in japan for about 5 years that japan didn't have much of a writing scene...this book/dvd proves otherwise...the dvd wont play on region 1 players but it worked on my laptop without any problems...this is great for anyone who appreciates the neglected art of the streets

this is a great book and the dvd is amazing. it could have been printed on better quality paper to make the work really pop. the cover is very well design and made though. just wish the paper inside
