The Magical Garden Of Claude Monet (Anholt's Artists Books For Children)

Synopsis

Julie lives in Paris, but she longs to walk in a beautiful country garden. When her mother takes her on a visit to rural Giverny, Julie discovers a beautiful garden and befriends the man she believes is the gardener. In fact, he is the garden's owner, the immortal artist Claude Monet. This is a title in Barron's Anholt's Artists Books for Children series, in which author and illustrator Laurence Anholt recalls memorable and sometimes amusing moments when the lives of the artists were touched by children. Anholt's fine illustrations appear on every page and include reproductions of works by the artists.

Book Information

Age Range: 4 - 8 years

Series: Anholt's Artists Books for Children

Paperback: 32 pages

Publisher: Barron's Educational Series (October 1, 2007)

Customer Reviews

I have long been a fan of Linnea in Monet's Garden - so I was very excited to find this new series of books by Laurence Anholt. Anholt's approach to introducing children to these artists - he has covered Monet, Picasso, Van Gogh, Degas, and DaVinci - is to use their art to create the backgrounds and settings for his characters. This book in particular is my favorite of the series because it is crowned with a fold out of Monet's vivid Waterlilies with a tiny boat floating across it carrying the story's members - Monet and a little girl who happens upon his garden. Before it is over, the little girl plucks one of the lilies from the famous painting as a memoir. My daughter loves this picture - and it is almost surreal to me to see Monet's art coming to life in such a manner. I can hardly wait until she visits the museum and sees the real painting. Watching her make this

connection should be very exciting. Aside from this stunning mixture of Monet's work and Anholt's own lush artwork - carefully drawn to compliment the featured art - the book gives some great educational information about Monet by weaving it into the story - all this without ever starting to sound like a textbook. The story retains its' focus and its' charm without becoming boring. That is an amazing accomplishment in my opinion. I hope to purchase the entire set for a lovely and educational Christmas gift. These are sure to become beloved classics. Any children's book that learns to entertain both child and parent equally often does.

The Magical Garden of Claude Monet is a great way to expose young children to impressionist art. My son loved the story of Julie in Monet's garden. Julie is a young French girl who takes a train with her Mother to visit Monet's garden. As they arrive into the countryside, her dog runs away and is found in Monet's garden. Soon the painter and Julie become friends. The illustrations are bright and colorful. You almost feel as if you are inside one of Monet's paintings. Children will be captivated by the story as well as the beautiful pictures.

I love these books! We teach classical art and artist in my after school program so I decided to get this book for my students. I have used this book in the past and just didn't know where it was so I repurchased it. I love the bright illustrations and the beautiful writing in the book. The author does a great job explaining who the artist is and what they stand for. I like that these books allow my students to experience the artist in a new way. The pictures are stunning and the kids love seeing his paintings in the illustrations. The art is simple to mimic with young children. They love making tash marks. I have actually recreated the bridge and plant with students and they turn out beautiful! This is one of my favorite artist and have visited the DIA with my students to see a real Monet!

Fine art appreciation was a lost thing among adults let alone children, encouraging an understanding of art at a young age will encourage interest in art in children and their caregivers alike. Help kids enjoy art and culture while reading a fun story. With this book, (and the others in the series) they introduce kids to the famous artworks of great painters throughout history while encouraging a child's imagination to be creative and tell a story with each picture. This story is even better because it is based on factual people, even the little girl. She embarks on a journey with her mother to visit a friend..the little girl ends up chasing her runaway dog on the trip and finds herself in a most magnificent garden..only to find out that is the "friend" they were going to visit. This book is wonderful, historical, educational, and fun. It encourages children to think about paintings, and to

form images and stories for each one, to think about "what would it be like to be inside that painting".

I would give this 10 stars if I could. You would be doing yourself and your children a favor by purchasing this! I learned more than what I thought I knew, and my 8 year old ate it up. I love that this book can connect with adults and children alike. A must buy for anyone wanting to expand their children's knowledge of an incredible painter!

Anholt's lovely book about Monet is my favorite of the series about famous artists. He demystifies impressionism and actually inspires children to paint their own "magical gardens"!!

My daughter is studying various artists and this book brought Monet to life. She was so excited to see his "real" picture in another book after reading this. It also left a little question in the end that we could explore together. Very well done with beautiful illustrations.

My 5 year old loves these books. The pictures are beautiful, the stories engaging. We started with one and liked it so much that I bought the rest. Educational, but they don't know it ;-)
