Customer Reviews

after checking out this book from our local library, I simply had to have it. I have started to make my own window treatments amd this book gave good discriptive terms that were easy to understand. The pictures made the projects less intimating. This book is easy to understand with basic but important information

This book has nothing to offer. The window treatments look like skimpy ready made curtains. I expected more high end designs judging from the cover photo. My copy went straight to a yard sale.

Excellent book for getting ideas for window treatments.
