# Twelve Views From The Distance

## Synopsis

From one of the foremost poets in contemporary Japan comes this entrancing memoir that traces a boy's childhood and its intersection with the rise of the Japanese empire and World War II. Originally published in 1970, this translation is the first available in English. In twelve chapters that visit and revisit critical points in his boyhood, *Twelve Views from the Distance* presents a vanished time and place through the eyes of an accomplished poet. Recounting memories from his youth, Mutsuo Takahashi captures the full range of his internal life as a boy, shifting between his experiences and descriptions of childhood friendships, games, songs, and school. With great candor, he also discusses the budding awareness of his sexual preference for men, providing a rich exploration of one man's early queer life in a place where modern, Western-influenced models of gay identity were still unknown. Growing up poor in rural southwestern Japan, far from the urban life that many of his contemporaries have written about, Takahashi experienced a reality rarely portrayed in literature. In addition to his personal remembrances, the book paints a vivid portrait of rural Japan, full of oral tradition, superstition, and remnants of customs that have quickly disappeared in postwar Japan. With profuse local color and detail, he re-creates the lost world that was the setting for his beginnings as a gay man and poet.

## Book Information

Hardcover: 256 pages

Publisher: Univ Of Minnesota Press; Reprint edition (November 29, 2012)

Language: English

ISBN-10: 0816672776

ISBN-13: 978-0816672776

Product Dimensions: 5.5 x 0.9 x 8.5 inches

Shipping Weight: 12.8 ounces (View shipping rates and policies)

## Customer Reviews

Katsushika Hokusai is best known for *“The Great Wave Off Kanagawa,”* a masterpiece of Japanese woodblock prints, ukiyo-e. And even though *“The Great Wave”* was a part of a series, *Thirty-Six Views of Fuji*, it has almost eclipsed the rest of Hokusai's work. Similarly, the

poet Mutsuo Takahashi is best known for his homoerotic poetry, particularly the thousand-line *Ode* • which has drawn comparisons to Walt Whitman's work for its merging of the sacred reverence and corporeal pleasure. But as powerful as *Ode* is, it shouldn't necessarily cast a shadow over Takahashi's other work, particularly his newly-translated collection of essays, *Twelve Views from the Distance*. And although Takahashi's examination of sexuality doesn't start until 3/4ths of the way through the collection with *The Shore of Sexuality*, his work (ably translated by Jeffrey Angles) shows a lyrical sensuousness throughout that hints at his sexual awakening. Interestingly enough, he connects early childhood games with his relatives "the equivalent to say *Airplane*" to his burgeoning sexuality. These games would soon escalate to more explicit adolescent explorations, but sexual feelings, explains Takahashi, "connects the individual to the outside world." In other words, Takahashi's sexuality is not merely an internal expression, but an outward expression "bridging him to humanity at large. The flipside of that bridge, however, is violence. And while much of the violence that Takahashi relates is on a personal level "fights with his classmates, for instance, or beatings from his mother" it reflects the violence wreaked upon Japan itself both during and after the war, recalling, for instance, the leftover mines that would occasionally break apart a ship.

Mutsuo Takahashi knows how to make beauty from suffering. What skill could be more urgently needed now? How lucky that this book, originally published in 1970, has at last been translated by Jeffrey Angles in poetic language that is as gorgeous as it is precise. Raised in poverty by day laborers, Takahashi appears to be one of those rare persons able to use every misery as fuel for insight. The twelve chapters of this book are indeed "twelve views", or angles, and the perspective gained thus of violence, sexuality and rural Japan is complex and unflinching. "I have been loved by many different spirits," Takahashi writes. This book preserves an understanding of "places outside the world we cannot see with eyes alone" that seems to have been eradicated in modern Japan as surely as the rivers have been lined with cement. "Spirituality" is what it usually gets called but it is a spirituality devoid of wishfulness and precise as cartography. The only other book I've found that conveys this level of (how to say it?) rural Japanese spiritual acumen is Michiko Ishimure's *Lake of Heaven*. Of the twelve views, the view of sexuality is certain to grab one's attention. (You are also unlikely to find another truly compelling literary depiction of sex with chickens.) But, besides the understanding of "communities outside the world", what I find most stunning about the book is its deep understanding of violence. After describing a beating at the hands of his mother, Takahashi writes, "It sounds strange to say this, but when adults behave violently toward children, they always

seem much sadder than the children they mistreat. Children do not fail to notice that, even as they tremble in fear.
