Strokes Of Genius 6: Value - Lights & Darks (Strokes Of Genius: The Best Of Drawing)

Synopsis

This sixth volume in the celebrated Strokes of Genius series explores the power of value. From the darkest darks to the lightest lights and all the notes in between, value can build works of incredible complexity, or pure and simple poetry. More than any other single element of art, value has the power to force a flat surface into a realistic sense of dimension, convey textures, establish mood, and evoke terrific plays of light and shadow. In the hands of the skillful artists in this book, value draws us in, tells stories, and transports us to sights and scenes from the artist's unique perspective. 140 drawings from 100+ artists in charcoal, pencil, pastel, colored pencil, and pen and ink. A diversity of styles and approaches, presented in subject-themed chapters: portraits, still lifes, figures, landscapes and animals. Comments from the artists offering fresh-from-the-studio insight and ideas not found anywhere else. From breathtaking realism to on-location sketches, Strokes of Genius 6 promises hours of enjoyment and inspiration for artists in any medium.

This is an exquisite book! I was blown away at the skill and beauty of the masterful drawings. I shared it with my daughter who is an upcoming artist and she was equally impressed. This is the kind of art book that inspires us to get out our pencils and draw.

This book represents the best of drawing in several categories. This is a great source of inspiration for any artist who loves to draw.

Another nice drawing book from Rachel! I like that she's expanded the media just a bit more - into pastels, etc.

Well these artists are the best of the best, and as an artist myself I love reading about the process and the inspiration. Each one is unique and better than the last. The best of their series!

Love drawing and love all the different artists in this book, inspiring.

It is a fantastic book.

It's a gorgeous book, full of inspiration and love the artists captions that go along with each subject.

Beautiful book with amazing artwork. I love it!
