Essential Elements 2000: Comprehensive Band Method, Bb Clarinet Book 2

Synopsis

(Essential Elements). (Essential Elements for Band and Essential Elements Interactive are fully compatible with Essential Elements 2000) Essential Elements for Band offers beginning students sound pedagogy and engaging music, all carefully paced to successfully start young players on their musical journey. EE features both familiar songs and specially designed exercises, created and arranged for the classroom in a unison-learning environment, as well as instrument-specific exercises to focus each student on the unique characteristics of their own instrument. EE provides both teachers and students with a wealth of materials to develop total musicianship, even at the beginning stages. Books 1 and 2 also include access to Essential Elements Interactive (EEi) , the ultimate online music education resource - anywhere, anytime, and on any device. Go to essentialelementsinteractive.com to learn more! Book 2 features: * Book 1 review section * Daily Warm-ups * Rhythm Raps, sight-reading and improvisation * Theory, history and multicultural music * Creativity and assessment * Instrument-specific etudes * Rubank Studies and solo * 12 full band arrangements, including a planned concert Book also includes My EE Library* (myeelibrary.com) - Instant Stream/Download/CD* ...with Play-along mp3 tracks for ALL exercises *Internet access required for My EE Library . Book includes instructions to order free optional CD.

Customer Reviews

I bought this to get me started on my new instrument. I play guitar but am troubled by the weight.

Still wanting to play music, I opted for the clarinet. This book and its dvd/cd helps make the process

of learning easy and fun. The lessons are paced well and new notes are introduced progressively and sequentially. A great starter book for amateurs or beginners that can be used to get anyone well on their way. I recommend it fully.

Ah, Essential Elements 2000. Along with Accent on Achievement, B flat Clarinet Book 1, it's one of the great starter books to help you learn any instrument. I thought the book was excellent as-is, but about halfway through I popped the included DVD into my computer, and found a myriad of useful (if a bit outdated) software. It comes with one called "SmartMusic EE Band" that includes computerized (yet printable) sheet music for almost any instrument, an electronic tuner that lets you know how close to the notes you're actually playing, computerized accompaniment software (that speeds up and slows according to you!), and clickable notes (you can click on them and see the fingering(s) available)! A great product gets a high-tech "sister book," so-to-speak, and makes learning the clarinet even more insightful.

Purchased Essential Elements for Band, Books 1 & 2, and Essential Techniques for Band, Book 3 by Hal Leonard along with a first Clarinet for my 11 year old granddaughter. Also purchased a second set for myself since i haven't played my Clarinet since 1957 in HS, and i want to see what she's learning. Surprised me, when her Father, (my son), was the first to use the books to assemble her Clarinet and played some basic notes without having any prior musical instrument experience. For me, at 73, it's a good refresher and I certainly need all the basics before I can progress to Hal Leonard's Clarinet Books "Songs of the 40's Songs of the 50's, & Songs of the 60's".

I highly recommend any of the Essential series book by Hal Leonard. They have been edited and updated throughout the years to be far superior to any other book I have come across for learning an instrument.

Hal Leonard's Essential Elements series newest edition replaces the EE 2000 series without rendering that obsolete. A good evolution in this method.

This music book is great and the songs in it are okay. It was delivered on time and it's in really good shape. I would recommend this to a friend!

This clarinet music book was exactly what my daughter needed for band. It is a top quality book as

required by her teacher.

I am having a great time with this book and my Clarinet. Hal Leonard, in my opinion, always gives you a well thought out learning plan for learning an instrument.
