The cover picture is included but is not representative of the other illustrations in this book. This book is filled with a variety of charming and whimsical Christmas illustrations; some are simple in detail and design others more complex. You will find full page collages of Christmas bulbs, Mittens, Bells, Santa & reindeer riding across the night sky, plus pictures of Gifts piled high, Decorated Christmas trees and abstract Christmas trees, Santa and his sleigh, and many more all based on traditional Christmas items just waiting for you to add christmas colors to bring each to life.1. 30 illustrations printed one per page (the back of each page is blank) on light weight, bright white paper.2. All markers and gel pens bleed through the paper, I just place a piece of paper under the page I am coloring to prevent damage to the next page.3. I am going to put up 8 of my favorite pictures and a

couple of my least favorite to give you a better idea of the content.

Complexity of the artworks range from beginner to more advanced level. It could be shared with family members that have different levels of coloring skill. Even though paper is one of the thinnest in the market, the book is printed single sided. Gel pen or magic marker colorists can easily fix the bleed through issue by putting a blank page in between.

This book has a nice variety of designs, some simple, some more intricate. The one on the cover is probably the most detailed in the book. I like the fact that some are simple since I don't always have the patience for a design that will take a week! The pages are: -Single sided (no printing on the back) which is good since most markers and gel pens bleed through. -Bright white, smooth paper (same as all the Createspace publications) -30 pages to color -Some designs are large scale enough to be suitable for crayons, colored pencils, even pastels -Some designs are edge to edge, some are centered on the page, some are asymmetrical (see my photos) -Some of the designs are intricate enough to require fine tip markers -The paper cannot handle any watercolor media. I only gave it 4 stars since some of the full page designs are the same snowman, mitten, santa, etc. just repeated all over the page. I really don't want to color the exact same guy over and over. All of the line art looks computer generated, and I prefer something that looks a little more hand-drawn.

This isn't in any way a coloring book for adult. The drawings are for the most part not very nice, often too simple and the sheets are too thin. This is a coloring book for children. Not worth the money.

Good assortment of lovely designs but wish the paper was thicker. Have many art therapy books and this is the thinnest paper of all of them.

First of all, the cover says "for Relaxation, MEDITATION and Blessing". Hmmm. This just isn't much of an adult level coloring book. The drawings are simplistic (pages filled with rows of mittens aren't particularly challenging) and more suited to older grade school level kids. My order is being returned.

Ok, I've colored at least a half dozen pictures out of this book, and so far I like it a lot. Illustrations are whimsical and fun. Printed on only one side of the paper. Of the 30 or so images, 7 of them are

Christmas Trees. Downside is that the pages do not tear out. This is a fun book!

I purchased several of these for gifts. I just hope the folks I got them for will like them. In the past several years I have purchased several books to color... and these were not quite up to my expectation.
