Fairies In Wonderland: An Interactive Coloring Adventure For All Ages

Synopsis

Take an enchanting trip through a magical fairy world in this beautifully illustrated, interactive coloring and activity book for all ages, created by renowned illustrator Marcos Chin and filled with enchanting black-and-white line art, and engaging riddles and puzzles throughout. *Fairies in Wonderland* is a whimsical, fantastical foray into the world of the ever-popular fairy. Marcos Chin presents fairies in various, intricately illustrated scenarios to explore and animate with color, from early morning flights among dew-kissed flowers to lounging on leaves floating gently in a stream to a charming game of tag among fireflies in a dark forest. While the drawings soothe the soul, riddle and puzzle elements engage the mind. As you bring to glorious color this lush and inviting wonderland, you will find images of keys embedded in the drawings that spell out the answers to a series of riddles sprinkled through the book. By unscrambling the lettered keys, you will discover the answers to the riddles and collect prizes—images representative of the words and tools that enable you to solve the next riddle in the book. Featuring a heavy card stock cover with extra-wide flaps, and bewitching black-and-white line art printed on heavy white paper with excellent opacity ideal for coloring—with markers, pencils, crayons, or paints—and framing, *Fairies in Wonderland* lets readers of every age tap into their creative spirits and provides hours of entertainment and fun.

Customer Reviews

“*Fairies in Wonderland*” is a lovely book filled with charming and whimsical fairies in four different parts of their journey, including beautiful gardens, night woodland scenes, and also part of

their journey through the ocean. There is a riddle that runs throughout the book for anyone who cares for those activities. I'm not really very interested in that part of the book. There are also four detachable postcards in the back of the book. I love to color postcards, so this is a huge bonus for me. The artwork is unusual and beautiful. The book is divided into two parts. The first part is white background for daytime and the second part is with black background for night scenes. I think it is marvelous to have both options in one book. I will provide more detail on what I found in this coloring book, but here is a quick overview:

- 94 pages of Fairy and Fairyland Designs
- Printed on both sides of the non-perforated page
- Many designs spread across two pages
- Many designs merge into the binding
- Binding is sewn
- Alcohol-based markers bleed through the page
- Water-based markers, for the most part, do not bleed through
- India ink pens and Gel pens do not bleed through and do not leave shadows on back of page
- Coloring pencils work very well with this paper

The designs in this coloring book are printed on both sides of heavyweight, non-perforated pages. The designs do merge into the binding area. There were 64 pages of designs spread across two pages while there were only 30 pages of single page designs. In my book, the alignment of the pages was quite good. The binding is sewn rather than glued, so you can remove several whole pages at a time without loss of design by snipping a few threads.
