## Customer Reviews

This is my second coloring book by Lizzie Mary Cullen. The other is *The Magical City*. I really enjoyed the first book and like this one even more because it celebrates my favorite time of the year. Ms. Cullen's artwork shows a beautiful swirl and flow that re-invents how I look at perspective. There are classic themes in the designs but they are imagined in a new and modern fashion. Most of the designs are very intricate, include some small areas for coloring, and fill the pages. The designs are definitely geared towards an British Christmas theme but there are nods to other places with designs specifically showing how Christmas is celebrated elsewhere. My favorite, because I love all things Holmes, is currently *Christmas At Baker Street* which will be my first design to color in

this book. There is also a hidden objects search and find as many artistic coloring books are now including. The key is in the back of the book, along with what amounts to a "proof sheet" of the pictures in the book with the names of the various designs. I'll include a long listing at the bottom of this review if you would like to look through what is included especially as the designs are so detailed, the names may be of equal use in understanding the contents of this book. There are 65 designs in this book, 17 of which span across two pages. The book is printed on a good medium weight white paper. The cover does not come off but the inside of front and back can be colored though the paper is extremely glossy. The outside of the front of the cover is beautifully illustrated and colored with touches of red and gold foil on it. There are parts left that you can color and the outside is slick but not glossy.
