Customer Reviews

I've been getting into coloring as an adult and I'm so happy to have bought the 'Animal Kingdom' coloring book! It's filled with 48 wonderful artistic animal and wildlife pages to color. The pages can be easily torn off to frame and you can also give them to others so they can find some enjoyment. It comes with 12 colored pencils as well as a sharpener for them. I like how they're at the top of the coloring book and it fits perfectly up there for easy reach, access and closure. There is a heavy card inside where you lay the page that you're coloring underneath of it so your coloring media such as gel pens won't go through to the next page. I really love this book and it's perfect for traveling on the go, or if you're at the doctor's office and are in the waiting room, etc. I recommend this to anyone that's into coloring and would love an animal kingdom book to make beautiful!Disclaimer: I received this product at a discounted price in exchange for my honest and unbiased opinion.

First off let me say that I am a big/huge fan of all animals and that I love how each animal has its own very detailed personality. I will say that the quality of the book is excellent and each page has excellent detailed drawings and they are very beautiful. You could spend many hours in the adult coloring book on just one page and it also came with 12 pencil colors and a pencil sharpener. This book also has approx. 48 detachable pages that will keep you relaxed. I will also say that my 8 and 6 year old love to color these books and that it is great for the hand I coordination and that when this book came in they were very excited. The size of the adult animal kingdom coloring book is 8 x 8 x 1. Thank you it is a beautiful book....DISCLAIMER: I did receive this product free for my honest/unbiased opinions and my honest/unbiased reviews....Thank you

Since I was a kid, I really love to draw and coloring the books, my mom bought me a bunch of stuff for learning purposes, as time goes by I switched to do crazy things as part of growing up. At times that I'm so down or boredom strike the only thing that I wanted to do is to get a coloring pens and draw something. When I saw this one on and offer me to test their product I definitely said yes because this is what I want to do to relieve stress and and I just let the time passed by doing something.This book is totally awesome, I love it. There are 48 pages of different kinds of beautiful animals, 12 quality colored pencils and a sharpener. The colored pencils color are nice and a high quality with no smudging. The pages don't feel thin and there's perforation where you can tear them out for framing and acts as a tablet for a smooth coloring surface while protecting the sheets

beneath from any marks or indents. When I use the colored pencils, the colors don't come through or bleed through the pages to the opposite side even when I press hard, which is nice. The sharpener sharpens the pencil evenly without breaking the point. It is classy to bring it anywhere, perfect for a long trip/traveling, we plan to visit my family end of this month but it takes 20 hours by plane, so this a perfect time to enjoy using this coloring books while flying. The most I like and the idea of attaching the coloring pens on a book, all I need is already in this book, the pencil, sharpener and a detachable sheets, it's awesome. This coloring book is ideal for all ages except for little ones. I received this Coloring books for adults at no costs for testing purposes and for an honest review. The opinions in this review are 100% my own based on my experience with the product, and I made no commitment to leave a positive review.

I love to color it's a very calming and soothing activity to do. I got this product because I love to color and absolutely love animals so this was a perfect product for me. I love how there is individual pull out pages of each animal for you to color your picture and carefully tear it out of the book if you want to hang it up. I love how it comes with twelve colored pencils and a sharpener which are connected to the top cover for easy access while coloring. Perfect idea. There also is a piece of cardboard to use like a temporary table so you can tear out the page and use the pencils with ease. This product was well thought out and made with excellent quality. I love all the different coloring pages you have to choose from. Best calming and relaxing adult coloring book I have ever come across. I recommend this product to everyone. I received this product for free in exchange for my honest review.

You received 12 colored pencils. Yellow, orange, pink, red, light green, dark green, purple, brown, black, gray, light blue and dark blue. The colored pencils come in a plastic case connected to the set, and there is also a nice pencil sharpener that fits in the same area. The pages easily rip off when you are done coloring and are an 8 inch square. The animals range from lions, hummingbirds, butterflies, eagles, swans, apes, giraffes etc. I won't list them all that would be boring and take me typing 48 different animals.
