## Customer Reviews

I like this coloring book but the pages are repetitive. I wish there was more variations in the pictures. Aside from that it is great. The pages are one sided and the pictures are beautiful. My sister is obsessed with elephants and she loves this coloring book

I love elephants and was looking forward to coloring the book. Unfortunately, the quality is very disappointing. The paper is of poor quality and so thin that the outline of the image on the next page is visible. Some of the images are not printed on the center of the page and were cut off. Ink is also of poor quality and not consistent that some of the images appeared faded. I would return if not for the fact that the shipping cost is almost if not the same as the price of the book.

So many beautiful pictures of elephants to color, it was exactly what I expected and I can't wait to fill the pages with colors!

This was a gift for my niece who loves elephants. She was given a few "adult" coloring books for her birthday, and this was by far her favorite.

love the pictures, different levels of details, something for everyone
