## Customer Reviews

This fun imaginative coloring book is filled with 42 whimsical illustrations of both real and imaginary cities from around the globe, under the sea, and high in the clouds. With every illustration covering two pages this is a wonderful book to spend quality time actually coloring the same picture with your children. My grandchildren love two page illustrations that two of them can color together or color with me. 1. This square (9 1/2" x 9 3/4" inch) book has 84 pages to color, front and back or each page, printed on heavy weight, bright white paper. 2. Each of the 42 illustrations cover two pages. 3. Each illustration includes traveling companions<sup>™</sup> to locate as you color, they include, dolphins, swans, bees, seahorses, geese, birds and more. 4. This book is great for colored pencils, crayons, and the following coloring mediums DID NOT leak through the pages in my test (Fiskars Gel Pens, Irma Gel Pens, Staedtler Triplus Fibre tip pens, and Staedtler Triplus Fine liners,) 5. These markers leak through the pages and will ruin the illustration on the back of the page you are coloring so actually would ruin 2 illustrations because they are all 2 pages. (Bic mark it (fine and ultra Fine),

Sharpie (Ultra fine and fine), Pentel color pen Fine point color markers, Stabilo fineliner 30 point 88 (these leaked through the least of the markers that leaked through the pages with spotty leakage in heavily colored areas, but I wouldn't trust them)<sup>6</sup>. The details vary within each illustration from small to medium. Illustrations include: :, the jungle, circus tents, sky scrapers, forest, Montreal, seaside cities, Amsterdam, Medieval city, adobe village, enchanted world, Bombay, Moscow and more.

Since each of the 42 illustrations cover two pages, the center of the drawing is uncolorable. Check out some of the images people have posted. Without a margin by the seam, the pictures are tucked into the seam. Very bad design.

Prior to receiving the book, I assumed it would be something I could get through in one day; I was completely wrong. Each page has such wonderful, extremely detailed pictures, making it a very enjoyable and lasting experience. It has brought out a more creative side as well when it comes to using the colors to bring each city to life. Once I get started, it is truly calming. I get into a "coloring zone" and I am able to block or momentarily forget any possible discomforts. I even let my daughter coloring the wider spaces. I recommend this book for leisure, as a stress reliever, or a travel activity. I never knew coloring could be so relaxing and fun for adults!!!(An older or very skilled child would also enjoy. As a past teacher, I observed that children who had trouble focusing or behavioral issues always enjoyed the freedom of art.)I just went back to design my inside cover; I don't want to give away the amazing pictures inside the book. You have to buy it and see for yourself.

I love the designs; they range from easy to color to very intricate. The paper quality is very good, but I do have 2 issues with the book. 1- Images are printed back to back, thus am limited to using only coloring pencils. Some designs have a lot of fine details, and I would have loved to do them just using very fine tip markers. 2- The actual designs are comprised of two pages. Essentially you have a legal-sized design to color. I would not mind this IF the pages didn't have another design on the opposite page.

Does not work for intended purpose. You can not actually color in this book because it is bound like a regular paperback, not like a coloring book. Specifically, it does not lie FLAT. It is not perforated. There is no reasonable way to color in this book.

Love the drawings to be colored but with illustrations front and back of every page unable to use sharpies due to bleeding through. Colored pencils do not have a fine enough tip for many areas. Also can't lay book flat because of the binding. Still love the book however and will order again from this seller.

Coloring has become my new favorite pastime & this book has been the perfect jumpstart to my adult coloring madness! I enjoy the combination of architecture & cityscapes. It allows me to be a little more conservative in my color schemes or run wide with my imagination. I color at night while listening to audio books. It's such an enjoyable [& very inexpensive] hobby! My husband says I've become a true 'Arteest' ;-).

Beautiful illustrated book! I would suggest using color pencils seeing that the pages are not very thick. I haven't tried fineliners yet in this book but pretty sure they would show up on the next page. Book is printed front and back. The book features real cities plus fantasy cities! Overall it's a lovely book, and was so glad to pick it up!
