Nice quality. The pages are slightly glossy so not all pens will write well on the surface. The art work is odd on a couple of the pages. One is a large portrait that I didn't exactly care for. However, if you don't have a specific taste in are, you will appreciate the quality of the pages. The artwork is not

labeled with title or artist.

Great pictures. Nice size. Not as much writing room for multiple entries as I might have liked. You cannot remove entries. Once it's there it is there.

the print is not as dark as it should be you have to look too close to see the numbers

There will never be another excuse to miss a birthday. For even more family tradition have each person you put on the calendar write their own name so you have a record of family signatures that will last a lifetime!

This calendar is a great gift for someone who is not easy to buy for. You don't have to worry about size or color and it is useful year after year.

I wish I had learned of this type of calendar earlier in life as it would've made life a lot easier. And while a lot of people are switching over to electronic calendars, I still prefer seeing things in print like this. I read that this is a popular product in the Netherlands where people hang it up in their bathrooms, and that's a pretty ingenious idea that America needs to get on board with!

This birthday/perpetual calendar is just what I was looking for. It's the perfect size, has a metal loop for hanging it easily, and has beautiful or interesting artwork. Plenty of room to write names on the lines.

Perfect for birthday/anniversary reminders and great artwork. I give these as gifts for birthdays, everyone can use them. I recieved one for a gift and love mine.
