# Sacrificed To The Dragon: Stonefire Dragons Book 1

## Synopsis

In exchange for a vial of dragon's blood to save her brother's life, Melanie Hall offers herself up as a sacrifice to one of the British dragon-shifter clans. Being a sacrifice means signing a contract to live with the dragon-shifters for six months to try to conceive a child. Her assigned dragonman, however, is anything but easy. He's tall, broody, and alpha to the core. There's only one problem - he hates humans. Due to human dragon hunters killing his mother, Tristan MacLeod despises humans. Unfortunately, his clan is in desperate need of offspring to repopulate their numbers and it's his turn to service a human female. Despite his plans to have sex with her and walk away, his inner dragon has other ideas. The curvy human female tempts his inner beast like no other.

## Customer Reviews

What I liked: I flat-out love the premise of this book. A BBW forced into a sexual liaison with a big, hawt dragon shifter? Count me in! Give him the best reason ever to hate humans? Even better. Give her a reason why she can't back out even though he's a jerk at first meeting? The best! Bring on the conflict, the hotter the better. What I didn't like: the writing. This writer has talent, imagination and she'll go far. She's not quite there yet. The writing was obvious and linear. Every emotion is first explained in so many words, then shown in actions, then in reactions. In other words, the author never trusts us to 'get it'. There's no subtlety or subtext, no sense that we the reader know a secret that the characters aren't yet in on. Sorry, but that's a straight line to boring.

"Dominatrix porn" (rolls eyes) hardly this is a amazing read filled with action and adventure. Clearly ppl don't read excerpts synopsis when it says explicit language and sex. Melanie is a take no crap sharp woman who in by no means is a dominatrix while Tristan is protective yet keeps ppl at arms length. Fantastic shifter read.

Such a good story that I read the whole thing even though I was exhausted. I couldn't put it down. The relationship between Melanie and Tristan is powerful and full of passion. From the very beginning they have a strong attraction between them, and a spark that leads to great friction, and dialogue. Soon they learn to understand each other and love each other as they were meant to do. Great book I really recommend giving it a try. It has very good plot structures, steamy sex scenes, and a believable love story.

My Thoughts - 5 out of 5 Unicorns - for the entire serial!! Awesome and I loved it all :)Part OneOkay I always start with the things I think people need to know or would like to know. This is a 4 part serial. It doesn't take long to read this because it is under 50 pages. Serials are not my favorite when it comes to reading; however, I loved reading this one. Considering the length of this, the author did a phenomenal job at showing me this new world and hooking me on the story. It usually takes me 2 or 3 parts of a serial before I really like the world and series.Melanie is an awesome lead. She is smart and will do anything for her family. She also will not be pushed around by a grumpy prejudiced dragon shifter. Tristan has a past, but I'm sure you read the blurb and know this already.Part TwoI always review the books I read based on my own enjoyment level, so remember this is like an opinion we all have them, and you don't have to agree with me :) I was given a copy of this part by the author, but after I read Part One and loved it, I went and bought this part too!! I do this a lot when given a copy.This is under 50 pages and a quick read. Not sure if this means short story or novella, but really does it matter. Serials are like a TV show where you have an episode worth of stuff going on. That being said some authors do this better than others. I like the way Jessie does it, but still secretly wish it was a whole novel length book because I really like this world.I really like Melanie as a character, but I like women who are strong and don't take crap from anyone especially when they are also compassionate and understanding too. Tristan\oh Tristan\one minute I love you and the next I want to slap you, so you are just like a real man :) lol I really like Bram because he is honest and tells it like it is. I really hope this becomes a series of novels because I want more of this world that Jessie has created :) Of course, I do love my shifter books.Part ThreeI'm not feeling very well this

weekend, and I decided last night to read in bed. I can't believe how quickly I was at the end. Things you may want to know, this is a serial novella series. What does this mean? This means you must read them in order or you will be lost. Also this episode is only about 50 pages. I have read several serials now, and Jessie does a fantastic job of meshing them together and stopping at place that makes sense and feels right. You don't feel like someone slammed the door in your face so to speak. Okay Tristan is starting to grow on me, and I didn't want to slap him once in this episode :) Melanie is of course awesome. I love her fighting spirit, but she is also caring and kind. She is the type of female lead I love to read about :) I'm very curious about Arabella, but I haven't made any decisions yet about what I think about her. Part Four Definitely an awesome conclusion to the serial, and I loved every minute of it. Melanie is an amazing woman and my favorite kind of female lead. Tristan is now an awesome man that I no longer feel needs to be slapped. Jessie is a phenomenal writer who makes the story come alive. I definitely didn't want it end. I know she has Bram story coming, so I'm happy about that. I just hope we will still get to see my favorite characters from this serial and updates on the family. The Stonefire Clan is awesome and I can't wait to read more of their adventures, and I'm hoping we will also get to meet other clans along the way too :) This series is definitely the best serial I've read to date. I highly recommend it to all my dragon lovin' shifter friends out there.

I love this series! The reading was a bit different than I am used, and by that I mean instead of being one book it was broken up into 4 parts. You can buy each part separately or you can do what I did and buy the box set. I would suggest the box set, if you are like me after reading part one you aren't going to be able to stop :). I loved this book for many reasons. The story was original. It is about dragons, their population is dying down so they need human female sacrifices to repopulate. Human and dragon relations are strained though, so humans entering into this deal are not 100% sure what to expect. The thing that makes it worth it is the healing power of dragon blood. Melanie is earning a PHD, but has to put her life on hold because her little brother is dying. Human medicine can't save him, her only hope is that she will be a match for the dragon sacrifice program. In return for her helping to repopulate the dragons world, they will give her a vial of dragon blood to save her little brother's life. Tristan hates humans. They murdered his mother and torture his sister and the last thing he wants is to be forced to spend time with them. He would be just fine not having to be involved in the whole sacrifice ordeal. The alpha dragon and his best friend tell him he has to take part. So with lots of reluctance Tristan enters into this agreement. Fate has different plans though

and Tristan nor his dragon can stay away from Melanie, his dragon knows she is their true mate. As if that isn't enough dragon hunters (The same one that killed his mother) are trying to kidnap members of his clan to sell the healing blood on the black market. His sister is still tormented by what the hunters did to her. And his dragon had gone into a mating frenzy! Speaking of Tristan dragon, in the whole series some of my favorite parts were seeing the dragonmen interact with their dragon half! I love the small inner arguments they have, and their dragons make me laugh with the cavemen tendencies. Not to mention the dragon half seems to think they are always right and are very straight forward with their demands. I don't want to type too much more, my sister claims I always give away crucial parts of the book and ruin it for others, but I do want to say this story is so worth reading! It is funny, original and has a whole crew of characters that are going to make you want to keep coming back for more. I purchased this one week ago and already finished this box set, Bram's story, Reveling the Dragon and have just purchased Healed by The Dragon!
