This is a cute and fun set of 32 Halloween designs for coloring by artist Suzy Joyner. I also have her coloring book, “Soul of the Woodland” and am really pleased with both books. I’ll be looking for more coloring books by this talented artist in the future. I have been looking for a fun to color adult Halloween book and this one fills the bill. It includes jack-o-lanterns, cats, skeletons, spiders, ghosts, bats, and even a Frankenstein’s monster. This book is sure to provide hours of fun while getting ready for the ghosties and goblins to head to my door for trick or treats. The book is printed on a good quality but thin bright white paper. The designs are printed on one side of the page with

the backside left blank. I will definitely put a piece of freezer paper or card stock behind the page as I work as all markers and gel pens leak through. While the pages are not perforated, it doesn't appear that it will be difficult to remove them from the binding. The binding is glued rather than sewn. The designs are centered on the page with some blank space left next to the binding. It should be fairly easy to get from edge to edge of the design while coloring if you like to keep your designs in the book. I am having so much fun with my adult coloring books. It certainly helps me de-stress at the end of the day. I am able to put my focus into something outside of my daily toil which takes the weight of the world off my shoulders - at least for a few hours.

Every year I search through looking for new Halloween coloring books that will enhance the anticipation of this fun holiday for my grandchildren, inspire their creativity and kick start their imaginations. This is not an easy job, many new coloring books are too gory filled with dark art, many are too basic and simply depict those items we associate with Halloween in a boring form that fails to inspire, and others fail to incorporate our beloved Halloween symbols at all. I was thrilled as I looked through this book for the first time; each page I turned brought me another picture of one of our beloved traditional Halloween symbols including Skulls, Tombstones, Jack-O-Lanterns, Spiders, Candy, Eyes, Witches, Black cats, Ghosts, Bats, a Mummy, a Vampire, a Frankenstein, Owl, Raven, and even a Haunted castle. But this book is different, the artist breathes new life into Halloween coloring with the addition of her own delightful, imaginative and whimsical touch, she has created original, captivating, charming illustrations, filled with meticulous, intricate details and unprecedented combinations that will inspire creativity and kick start imaginations in both adults and school aged children. You will want to color every single image in this book. 1. 32 Illustrations printed one per page on light weight, bright white paper. 2. All markers bleed through the paper, blank pages have been added at the end of the book for your convenience that can be used to place under the page you are coloring to prevent damage to the next page if you are using markers.

We had a family gathering this weekend so I got this book and colors. I set it on the table for whoever wanted to look at it, or start coloring. Our 6 year old painted a wonderful Halloween scene and so did his cousins and a couple aunts. It was fun and lots of stories were told while coloring. This was a great project and yet no one would have described it as a "project."

Very cute fall themed pictures. If you are going to use markers though you should put another piece of paper behind the one you are coloring to prevent bleeding of marker from ruining the next picture

since the paper in this book is kind of thin.

Really a very nice coloring book with appropriate Halloween motifs. I put a stiff sheet of card stock under the sheet that I am coloring. I find that it provides a firm backing. I use colored pencils, not water soluble; they do a great job and you can put some firm pressure on them. You can use crayons as well. I prefer the finer line and more control of a pencil. Children can grasp a crayon much better however. I highly recommend this coloring book.

Love this book!!! One of my favorite

I love halloween so I was very excited for this book. I love blue star coloring books already and this is another great one I've added to my collection. The pages are beautiful and detailed. They don't print on the back of the page so you're able to use markers if you prefer. Fast shipping and a great price too!

I just started coloring relax in the evenings after work. This book has some really cute pictures. A few of them are a little easy, but it is a good quality book with thick pages and I am still enjoying coloring in it.
