Customer Reviews

Was not impressed. Definitely thought it would be normal sized pages. Very small. Pictures only fill up half the small sheet. All the photos are sailor moon, anime style and from the internet. I could have found these and printed them on normal sized paper. But the pictures are printed pretty clearly.

It's a collection of Sailor Moon pictures, none very impressive. The cover is extremely deceiving. None of the artwork is that detailed. For an adult coloring book, you have pictures the quality young children color.

I thought this would be a normal size coloring book but it's pocket size. The pictures are so small it's almost not worth the effort to color them.
