Engrossing! I read this book in one sitting, because I could not bear to put it down. I'm not easily moved, but Ms. Opdyke's story of life as a young woman in Nazi occupied Poland moved me. I don't easily cry, but I shamelessly cried several times while reading this book. This is an inspiring tale of courage and resistance in the face of unambiguous evil. It is also the hope-filled story of grace found among the most surprising of individuals: two Soviet physicians conspiring to help a young prisoner of war to escape; a Wehrmacht Officer's Club manager blithely feeding slave laborers with luxuries intended for the "master race;" a simple Ukrainian priest openly preaching resistance; a Nazi officer sheltering Jews in the basement of his villa! Above all, this is a story of choices: a story of ordinary people immersed in a living hell, who chose to keep faith with each other, their ideals, their country, and their God. In a time when too many among us seek to avoid responsibility, here we find the story of a young woman who willingly took responsibility for herself and dozens of others. In a time when politicians conveniently twist "values education" to their own advantage, here we find the story of a woman whose religious and ethical heritage repeatedly demanded the best of her, even under the most dangerous of circumstances. Here we find a heroine on the order of Oscar Schindler or Raul Wallenburg. This life-affirming tale demonstrates that even under the most extreme circumstances, one righteous person can still change the world for the better. For that

reason alone, this book is worth reading. If you have been wounded too often, and have become just a little too cynical about the world, read this book.

Although Poland was a fiercely anti-Semitic country, the nation which lost the highest percentage of its prewar Jewish population, and the nation where at least half of the murdered were from, ironically the largest number of people recognised by Yad Vashem as Righteous Among the Nations also came from Poland. Irena Gutowna (Irene Gut) is one of those people. The foundations for her heroic actions were laid in her childhood, when she and her four younger sisters would often rescue injured or abandoned animals and tend them back to life and health, as well as frequently showing kindness to less fortunate people as well. She was very angry and resentful that her beloved homeland of Poland had to suffer so much under the hands of both the Nazis and the Soviets, and knew she had to do all she could to fight both forces. At both the beginning and the end of the war, she fought with the Polish partisans in the woods; both times her partisan activities were brought to a grinding halt when she was captured and arrested by the Soviets, but both times she also managed to escape. After her first escape, she was found by other Russians and taken in her unconscious bruised and battered state to a nearby hospital in what is now the Ukraine, and after her recovery she was put to work as a nurse, having been a student nurse before the war. After escaping there when the new head doctor tried to attack her, she worked in a small Soviet village for a year, posing as the cousin of a female doctor and being her assistant, before she was able to go back home to Poland, eventually ending up in Ternopol, the city she had been in before she'd escaped the hospital where she was also a prisoner.
