Customer Reviews

Words cannot explain how wonderful this book is. I bought it to put on my coffee table and I don't have the coffee table yet. I just couldn't wait!!! There are dozens of inserts. Some of them are handwritten poems and letters he wrote throughout his life. Pictures of him and his family growing up. There are flyers of events he took part in, his correctional facility ID card and even his grocery list. It's unbelievable how well this book was put together. A must have for any Tupac fan.

I bought this book for my son-in-law who is much interested in Tupac. When I opened it, I was amazed at how beautifully put together the book is. It has an innovative, creative format which combines story, photo, and the primary source materials of his life. I know this is probably a pretty academic review--but really, this is a creative, gorgeous, well- designed auto/biography. Excellent.

This book is so incredible!!!Just to turn the pages brings awe and goosebumps. The life and times of Tupac are captured in his words on CD and in his writings which are so eloquently reproduced that you feel you are holding the actual paper that he wrote upon. The personal memorabilia scattered throughout the book bring him alive. The man in all of his complexity and compassion is revealed. This is a book to treasure.

Its so awesome ! One of the best books I've ever purchased .. So amazing , reading it .. Looking thru those images , hand written notes and pictures representing each word and described Pacs life to the fullest !!

Alot of new material. Some never before (or anywhere else) facts in this book. The 1/1 scale copies of some of his poems, scripts, and Letters ect. were amazing to hold in your hand. It's not a boring read either, its put together well.

WOW, what a great book! This is a must-have book to add to your 2Pac collection, if you are a true die-hard fanatic, like me! The inserts and reproductions of Pac's handwritten poetry will give you chill bumps! This book shows all sides of the man most of us never got to know personally, unfortunately. He was a very compassionate, very caring and very intelligent young black man,,,and not just the hard-core thug rapper "persona" he portrayed. You will not regret purchasing this book.

If you love Pac like me, then you already own this book! This book was given to me as a gift and now I consider it one of my most prized possessions. The added photocopies of his personal hand written notes and personal items give you the impression that you have touched his life as he has touched ours. I love this book!!!

Well I love Tupac so anything new to read, or watch, listen to i'm on it. This books is perfect for any Fan because it is Jam packed with all sorts of odds an ends. I love coming back to this book because it covers a lot of ground lots of information and the cool trinkets are just icing on the cake !
