Attached is my silent and quick flip through video of the entire book of designs. I hope it is of assistance to you. This adult color book lives up to its name, "Kaleidoscope Wonders - Color Art for Everyone." The images are very reminiscent of that which I would see through a kaleidoscope when I was a child. I remember that magical feeling of shifting and changing the patterns and the colors and now I can have a similar feeling as I color the various designs in this book. The designs are all supplied by GMC Designs/Shutterstock, Inc. I don't know if that means there are various designers

within those companies or not, but there isn't a specific artist mentioned. There are 24 designs, which each of them having a kind of repetitious look - some with centered designs and others with the patterns at a slightly off-angle. Most of the designs are either flowing patterns or flowers but there are also designs that incorporate butterflies, tea cups, sea shells, and hearts. The paper weight is nice and heavy - very much a feeling of premium grade paper. The designs are printed on one side of the page (with the back side blank.) The pages are all micro-perforated so removing them from the book will be easy. The print quality of the design is excellent. I will keep my magnifying lamp handy as some elements of a few of the designs are small and intricate but for the most part, I will not need to use my lamp. I have had some bleed through of color with my markers and gel pens. Not as much as with some other brands but certainly enough that I would either remove the page from the book or put some freezer paper or heavy card stock between the pages while I am working. At the front of the book there is a section on understanding colors.
