## Customer Reviews

This book is great. The paper is excellent quality. No, the pages are not perforated, if I want to take page out, and hang it on the break room fridge so that my stupid coworker sees it, I just use my exacto knife to cut it out. This really does help to release my anger, perfect title for this book. If you have an idiot co worker, an idiot spouse, an idiot mom in law, a douche neighbor, you need this book. This would make an excellent gift for anyone in your life that loves and collects adult coloring books. The images are single sided, so you can use which ever medium you prefer without ruining images on the backsides. Two thumbs up!!!\*I paid FULL PRICE for this item and I am under no obligation to leave a review, positive or negative\*

Note To The A\$\$hole Boyfriend is full of hilariously re-latable quotes that are beautifully illustrated. I received this product at a discounted price in exchange for my honest review. I purchased this coloring book as a gag gift for my best friend who's having a massive fight with her boyfriend and I wanted to cheer her up. The illustrations are well done and hilarious, perfect adult coloring book for a little stress relief. I'm really hoping she gives me one of the pages when she's done coloring it to hang on my fridge. Bonus! The guy I'm dating noticed this book on my table waiting to be sent off to my friend and immediately started doing my dishes and cleaning the kitchen, so ladies if you need help around the house perhaps having this coloring book around will help. If not you can color your frustrations away.

Bought this as a gift for my 19 year old daughter, she has been through a few nasty breakups and I thought this would be a perfect way to keep her mind busy while improving her mood.the color pages are fun and sure to bring a smile to anyone's face. The detailed pages allow for hours of stress relief and therapeutic coloring.I do have to legally disclose that I received this product at a discount in exchange for an HONEST and unbiased review. In NO WAY do I work for this company, I simply do the research and test these products so that YOU as the consumer know what it is that

you are purchasing.

For the most part I really really like this book. It has a lot of pages in it and is a great way to help deal with breakups. However this first page (the one I quoted in the title) makes no sense....or at least, is messed up. And another down side is that some of the pages are a little hard to differentiate the words from the background, so it is is hard to read. But for the most part I really like it a lot. It seems a little on the cheap side, but it has a lot of pages so it evens out.I received this at a reduced price for my honest unbiased review

Going through a separation myself- I thoroughly enjoyed these snarky doodle pages. Inspiring really and of course coloring adds peace to my life. So it kind of makes you smirk while coloring the witty words. Very well done and great idea. I shared with a group of ladies that I meet with weekly and they are definitely going to be ordering.Added perk is that you get access to more online!! received this product at a discount in exchange for my honest and unbiased review. I have already recommended it.
