## Customer Reviews

Hahaha, these are great, not only are they funny, but coloring is very therapeutic, they say... Who  
ever they are, say it's close to meditation. I love to color and I see why. You can really just zone out  
and relax. These are not only funny but they are pretty too, there is a good variety and I like that  
they are one sided. I can use my gel pens and it won't ruin the other drawings. There are many  
pages and designed nicely, I'm happy with these and would recommend this, I was lucky enough to  
get this at a discount in exchange for my honest opinion.

Not the best swear word book, I've seen but not the worst. Designs and paper quality are decent. I was disappointed that "Screw you, I'm coloring" wasn't actually one of the pictures inside. Single-sided, non-perforated.

These are fun. Overall I love the patterns but I don't love some of the statements, they get a little vulgar for me, I wish it was a little more cuss words and less vulgar insults. The patterns are easy to color but fun and pretty. I like that it doesn't take days to do one page.

This is my first swear word coloring book, but it won't be my last. Screw You, I'm Coloring is a new approach to coloring. Coloring is fun, relaxing, and a good way to destress. Coloring swear words is extra relaxing when you've had a bad day. I liked this book for several reasons. The designs are not so intricate that they take more than a few hours to color. I like to complete my pages in one to two sittings, and I can do that with this book. I also like the juxtaposition of the swear words with pretty background pictures. It was amusing and gave the phrases more of a shock value when read. There are a few pages that are too vulgar for me. However, I assume this is to be expected with this type of book. Not everyone has the same taste, after all. I also would have liked to have seen the cover depicted as a page to color within the book. Note: I received a digital copy of this coloring book in exchange for an honest review. All opinions are my own.

I purchased this coloring book for a fellow employee, she was the first person I thought of when I saw it. She absolutely loved it. Made her day and mine. Made me kind of wish I had gotten myself a copy. The swear word combinations are fun.

I purchased the Alex Fleming Swearing Coloring Book because my Wife and I really enjoy coloring after working all day. This is a Excellent way for us to receive a little stress relief at the end of the day. I have purchased a couple of Alex's Coloring books now and find that they are Very Funny and a lot of the time express the way I am feeling that day. I have shown several other friends his coloring books and everyone Loves Them and wants to know where I purchased them so they can purchase one for themselves. I think everyone will find these coloring books Very Funny, Interesting and A Lot Of Fun to Color as well. We have several of the pages that we have colored on our refrigerator door. Every once in awhile you just have to let it out and let people know just how you are feeling and this is a Excellent way of putting a personal touch to your thoughts. Not only are they fun to read and funny but, Alex has added the artwork to each page that really makes each page a

Beautiful Piece of Art once you have colored your Masterpiece. I Would Very Highly Recommend Alex Fleming's, Screw You Coloring Book to everyone that has a Fantastic Sense of Humor. I am sure that you will enjoy them as much as my family and I do. I received a discount on this product in a Special Promotion in exchange for My Honest Review. My review, my Opinion, and my experience with this product is 100% Genuine and Honest ! Just like all of you I also rely on the Honest Reviews from other people to help me decide on the products I purchase as well ! I Never allow the discount change the way I review any product ! I would like to Thank the Alex Fleming for allowing me the chance to review his Swear Word Coloring Book and putting a smile on my face every day.

I love Alex Fleming's coloring books and I have quite a few of them. If you like strong language/curse words, then you will find this book hilarious. Also, if you ever get angry at someone or a certain situation, sit down, pick a phrase that best describes your mood or what you're thinking, and color away all your stress. It's like taking a nice long and hot shower.

A "you had one job" fail. The author is tasked with creating designs that can be colored - that's basically it. Most of the designs have sections that are miss-drawn and don't close. There are several pages that miss a necessary comma, making the insult into just vulgar words without meaning. It's clear that the designs were rushed and are a disappointment. I likely wouldn't have left a review if the last page hadn't specifically asked me to do so.
