Synopsis

The Egotist tracks the development of its author, Jesse Bogner, from a hedonistic New Yorker to a Kabbalist, on a path to find the meaning of life. This audiobook offers a glimpse into the misunderstood world of Kabbalah and how the collective plea of Kabbalists has the power to correct the egos of individuals and the world at large. Customer Reviews

I got this book from my childhood friend, we are still very close, but most of the times, I am very skeptical about his book recommendations...this time he managed to impress me. This book surprised me from the very beginning, mostly by the manner of storytelling that so much reminded me of early Nabokov, this particular manner of storytelling, the storytelling without a single boring moment, the storytelling where you find yourself reading page after page and suddenly realizing that you don't want this book to end and you just want to read more and more...what a feeling, what a feeling. Very talented, very honest, very deep piece of literature.

This is a must read for anybody with questions about life. It's heartfelt and personal, and at the same time addresses the general problems and questions facing people as a whole. It's a wonderful story tied together with a really thoughtful explanation of the wisdom of kabbalah for anyone in search of the meaning of life. A must buy!

Have to say this book was nothing like I expected. It's very deep and will touch emotions you didn't

know you had. Already looking forward to the next masterpiece from this young author who has been through so much in life.

Not so much a story, but a little glimpse into the selfish nature of the world and the way people can overcome their flaws. I could really relate to the feelings Bogner portrayed, even though our stories are so different.

This book explains the human condition and the longing for deeper meaning that we all feel, sometimes without even knowing it! I have read lots of spiritual books and this one is a true joy and pleasure to read.

It is an amazing novel, definitely a must read for anyone who considers themselves a spiritual seeker. But what's truly fascinating is how Jesse makes you take this journey along with him. Take this journey along with Jesse - you'll get a chance to look within yourself and will be rewarded with new discoveries. Good luck!

No man knows Kaballah and how to find your inner mystic warrior poet more than Sir Jesse Bogner. A must read for any kid or veteran that has a pinch of soul.

I have never felt like that before specially while I read a book... it pictures my inner reality at the same time touching so deep in my hearth ... I was astonished and kept read it again... every time I read that book it takes me somewhere deeper....answers so many questions that I have been searching for all my life ... amazing book.
