Volcanic Girls

Synopsis

A new edition in a special big format, using even better high density printing quality.

This collection contains some of the finest modern nude photography. Stefan Soell's works are characterized by their striking quality, and ability to offer a glimpse into the personalities of his models. He captures their beauty in awe-inspiring natural locations, where he combines art with the glory of nature. The location selected for this unique collection is Lanzarote, a small but beautiful island off the coast of north-east Africa.

Customer Reviews

I spend a considerable amount of time viewing artistic nude, nude, fashion, and erotic photography for professional purposes. Initially this line of work seems to be a dream job for any connoisseur of the female form, but eventually repetition has the potential to dull the senses to even one of the best of pleasures that life can offer. Fortunately that is not the case here. A few years ago I stumbled upon Stefan's work and have since put in into the literal handful of photographers' work who I study, dissect, and most importantly simply enjoy viewing. Here is why Volcanic Girls is a wise investment:1.) Mr. Soell's work is indeed an investment. If you view the other titles released by Stefan on you will see their price has indeed increased, sometimes dramatically, since their publish date.2.) More than just a loose collection of photos, this book is travel adventure. I was not familiar with the island location of Lanzarote before viewing this book. Of course after finishing my first sitting with the book, I immediately sought out some images online for Lanzarote to learn more

about this beautiful location unknown to me.3.) The girls are natural, happy, and genuinely enjoy making these photos. You can see from the girls expressions and body language that they truly feel the freedom and relaxation that such a beautiful location provides. Even with the best green screens and retouch technicians, you couldn't recreate these photos and the emotions they exude in any studio.4.) Limited use of make-up and retouching. Upon close examination it does appear that possibly some minor post production work has been applied to these works, but if so it has been done tastefully.
