# The Time Garden: A Magical Journey And Coloring Book (Time Adult Coloring Books)

## Synopsis

A dazzlingly beautiful adult coloring book for all ages, *The Time Garden* will sweep you away into a whimsical cuckoo clock-inspired world, created in intricate pen and ink by the internationally best-selling Korean artist Daria Song. Then, explore the magical world outside the clock through the eyes of a fairy in the sequel, *The Time Chamber: A Magical Story and Coloring Book*. Journey through the doors of a mysterious cuckoo clock into its inky innerworkings to discover a magical land of clock gears, rooftops, starry skies, and giant flying owls—all ready for you to customize with whatever colors you can dream up. Cuckoo . . . cuckoo . . . cuckoo . . . When the clock strikes midnight, you'll wonder, was it all a dream? *The Time Garden* features extra-thick craft paper, ideal for non bleed-through coloring, and the jacketed cover with flaps is removable and colorable. Special gold-foil stamping on the cover and spine and a To/From page make it perfect for gifting to adults and kids alike.

## Customer Reviews

The title is a bit deceptive so look at the images carefully, if you are looking for a book filled with garden scenes this only has 5 illustrations with leaves and/or flowers that are like the cover picture. This is a very well made coloring book with a magical story theme, we follow a little girl on

her journey to find the doorway to her home, after she is transported into a fantasy world within an ancient cuckoo clock by a red haired fairy (Note: the fairy is not in the book on any pages) and the story lines are located in two paragraphs at the beginning of the book and on sentences on only 4 pages at the end of the book. The illustrations follow the little girl who is in every illustration starting and ending within her house, we follow her through doorways that lead into worlds including a steam punk world filled with gears, on to village streets filled with architectural images, then to a world filled with stars, and to the garden with 3 double paged images like the cover picture. 1. 42 illustrations printed front and back of each page, on bright white, card stock type paper. 2. This is a square book (9 7/8" x 9 7/8") with a removable and colorable book cover. 3. 20 of the illustrations are double paged, perfect for me to spend quality time with the grandchildren coloring the same picture. 4. It is difficult to get this book to lie flat for coloring, but the binding is strong and by bending the book backwards it will lie almost flat, the double paged pictures are printed through the binding and it is a bit difficult to color the center. 5. The following markers do not bleed through the pages of this book. Yeah!

The Time Garden by Daria Song is the most remarkable, enchanting, unique & absolutely beautiful coloring book I have ever seen. I have an adult coloring book collection of 49 color books, including The Secret Garden & The Tatum Coloring Book which is handcrafted by Megamunden. The three of these are done in very similar ways, astounding works of art showcased on excellent paper or card stock & encased in a book jacket or slipcover. However, the Time Garden has the honor of being the most unique. When I purchase color books of this caliber I know I'm going to have to rely on colored pencils for the most part with the occasional gel pen. This book, however, has presented me with something of a dilemma. The pages feel and look like card stock or something very similar, unlike the parchment type pages of the others. When testing Prismacolor soft core colored pencils it doesn't seem to have much or any tooth to aid in grabbing the color, thereby leaving it with a flat look. I haven't tested my Faber Castell or Lyra Rembrandt oil based colored pencils yet, maybe they will lay down color better. I use mainly Letraset Promarkers, but also incorporate Prismacolor markers, Sharpies, & Bic markers, all permanent in nature. I tested the ultra fine Sharpies & Bic, and as expected they bleed through. I knew the others would so I didn't bother testing them. I tested numerous gel pens, including metallic, glitter, & neon, and they don't bleed through. With all my coloring books but these work of arts I copy the images onto card stock with a semi-fine tooth and get excellent results. I do not give the copies to anyone else due to copyright infringement. So I'm not certain as of yet which mediums I will use.
