Customer Reviews

This book was great! Excellent selection. I did notice that one or two of the songs are missing a vocal patten intro our skipping the odd interlude, but all-in-all, this was a GREAT purchase for a belt mezzo! My accompanist was quite happy with it, as well--it was up to his high musical standards. I would recommend this book.

You just can't beat the prices on [Amazon](#), unless you find what you want at a garage sale, and who wants to

go out in this heat? This book has many great songs and easy read and play. This book arrived in good shape. I will continue to look on for more good deals. Thanks

This book is a great collection, however, it is advertised to include songs in the book that are not there (the pictures and description are misleading). There is only one song from Book of Mormon (I Believe) and one song from Lion King (They Live in You). Contrary to the picture of the back cover, the book only includes one song from the "Lion King" (it does not include Shadowland, it only includes They Live in You), and it does not include "It Takes Two" or anything from Into the Woods. Here is a complete list of the songs that are advertised that are not included: Along Came Billy, Elaborate Lives, It Takes Two, Once You Lose Your Heart, Shadowland, Timeless to Me, Who Will Love Me as I Am. All in all, this book is a great deal for the price, and the arrangements are good and solid! And although I was disappointed to find out that Shadowland and It Takes Two were exempt from the book, even though they were advertised, I am still satisfied that I bought the book. I would be delighted if Hal Leonard reconsidered adding some more Sondheim and Schwartz, Book of Mormon, Avenue Q, Wicked, Lion King, Rent, Once, or even more contemporary Broadway musicals to this collection (Kinky Boots, If/Then, Hamilton, Fun Home) in the future.

Product was in great condition and arrived quickly! Packaging was appropriate and kept the item in great condition! The book contained tons of classic Broadway tunes and is a staple for any vocalist! Great product!

I "read" this book because I'm a big fan of Broadway and have always wanted to learn new showtunes. This book is great if you want to learn lyrics of great songs. Many of the songs in this book are popular such as "Memory" from Cats. There is quite a bit of variation in this book. There are songs from all sorts of musicals. If you want to learn the tunes of the songs in this book, it helps you play the piano or guitar. The songs are mostly in B flat. There are many time signatures too. I play violin, and I could learn tunes by playing violin using the music in this book too. If you are looking for some songs to sing for an audition, or to play for an audition, or just for fun-this book is great!

Bought this along with the definitive Broadway for my teenage daughter. Thorough compilation and she was thrilled

This is a must for any singer's (or pianist's) library. All of your favorites from Broadway. Very easy

arrangements to play

Good way to build a library of music for reduced cost. Prompt shipping. Everyone should have an introduction to Broadway!
